Notes on Linear Algebra

Lina Vector

Synthetic test edition: not a real book

Contents

1 Vectors 3

2 Matrices 4

3 Determinants 5

4 Inner Products 6

Chapter 1 Vectors

1.1 Linear combinations

This paragraph is synthetic text written for the myLibrary test corpus. It has no meaning beyond giving the reader, the search index and the notes panel something to work with. Words such as aperture, convergence, eigenvalue, recursion, membrane and archive appear so that searches find them on known pages.

Chapter 2 Matrices

2.1 Eigenvalue problems

This paragraph is synthetic text written for the myLibrary test corpus. It has no meaning beyond giving the reader, the search index and the notes panel something to work with. Words such as aperture, convergence, eigenvalue, recursion, membrane and archive appear so that searches find them on known pages.

Chapter 3 Determinants

3.1 Cofactor expansion

This paragraph is synthetic text written for the myLibrary test corpus. It has no meaning beyond giving the reader, the search index and the notes panel something to work with. Words such as aperture, convergence, eigenvalue, recursion, membrane and archive appear so that searches find them on known pages.

Chapter 4 Inner Products

4.1 Orthogonality

This paragraph is synthetic text written for the myLibrary test corpus. It has no meaning beyond giving the reader, the search index and the notes panel something to work with. Words such as aperture, convergence, eigenvalue, recursion, membrane and archive appear so that searches find them on known pages.
